PatchMaster

LAWN REPAIR MIX
MEZCLA PARA REPARAR EL CÉSPED

TALL FESCUE MIX

PatchMaster® Lawn Repair Mix makes it easy to repair bare spots in your lawn. Everything you need to seed is pre-mixed and ready to grow:

Grass Seed

Mixture of premium tall fescue selected to blend with your existing lawn.

100% Recycled Mulch

Recycled pelletized paper mulch is biodegradable and helps keep the seed moist and in place during establishment.

Feeds Up To 6 Weeks

Controlled release nitrogen that seedlings need for fast growth and thick results.

HOW TO APPLY CÓMO APLICAR

1 PREP

Remove dead grass if necessary and loosen the top 2 inches of soil.
Si es necesario, retire el césped muerto y afloje los primeros 5 cm de tierra.

2 APPLY

First, shake the bag to mix the contents. Next, evenly spread a thin layer of PatchMaster® Lawn Repair Mix so the area is completely covered. For bare spots, the contents will cover up to 140 SQ FT. For those product instructions to determine how soon you can plant grass seed.
Primero, agite la bolsa para mezclar el contenido. A continuación, esparza uniformemente una capa delgada de la Mezcla para reparar el césped PatchMaster® de forma que cubra toda el área. En las áreas sin césped, el contenido cubrirá hasta 6,5 metros cuadrados. En las áreas raras, el contenido cubrirá hasta 13 metros cuadrados.

3 WATER

A deep and thorough initial watering is the key to success. Gently water the area until PatchMaster® Lawn Repair Mix is completely saturated and no more water is being absorbed (this may take several minutes). Avoid pooling water or run-off. Continue to water daily or more as needed to keep the soil moist.
Un riego inicial profundo y abundante es la clave del éxito. Riegue el área con cuidado hasta que el PatchMaster® esté completamente saturado y ya no absorba más agua (esto puede tardar varios minutos). Evite los charcos y la escorrentía. Continúe regando a diario o más, según sea necesario, para mantener húmedo el suelo.

HELPFUL TIPS

- Fall and Spring are the best times to use PatchMaster® Lawn Repair Mix. Seed germinates best when daytime temperatures are between 60°F and 80°F.
- Keep kids, pets, foot traffic, and lawn mowers off of the new seedlings until they are 3 inches in height.
- Mow new seedlings as soon as they reach normal mowing height, about 3 inches.

- Do not apply weed control products until the grass is well established (mowed at least 4 times). Additionally, if you recently used a weed control product, refer to those product instructions to determine how soon you can plant grass seed.
- Once established, after 6 to 8 weeks, continue to fertilize regularly using Scotts® Turf Builder® for a thicker, greener turf.

Scotts No-Quibble Money Back Guarantee™

If for any reason you, the consumer, are not satisfied after using this product, you are entitled to get your money back. Simply send us original evidence of purchase and we will mail you a refund check promptly.

NOTICE: ARBITRATION/CONCILIATION/ MEDIATION REQUIRED BY SEVERAL STATES.

Under the seed laws of several states, arbitration, mediation or conciliation is required as a prerequisite to maintaining a legal action based upon the failure of seed to which this notice is attached to produce as represented. The consumer shall file a complaint along with the required filing fee (where applicable) with the Commissioner/Director/Secretary of Agriculture, Seed Commissioner, or Chief Agricultural Officer within such time as to permit inspection of the crops, plants or trees by the designated agency and the seedsmen from whom the seed was purchased. A copy of the complaint shall be sent to the seller by certified or registered mail or as otherwise provided by state statute.

CAUTION:

Keep Out of Reach of Children

Eye contact with contents may cause eye irritation. Flush eyes with water as soon as possible. Avoid contact with clothing and wash hands with soap and water after handling.

PRECAUCIÓN:

Mantener fuera del alcance de los niños

El contacto del contenido con los ojos puede ocasionar irritación. Enjuague los ojos con agua lo antes posible. Evite el contacto con la ropa y lávese bien las manos con agua y jabón después de manipular el producto.
