STRING TRIMMER LINE & ACCESSORIES

Helping your customers choose the right grade of string trimmer line is easy when you understand what each level of line offers.

Trimmer line is divided into three categories: Residential, Commercial and Professional. Below is a brief description of each category to help you match the product to your customer's needs.

Residential

- The perfect grade for the average consumer
- Nylon material is suitable for typical trimming jobs around the yard

Commercial

- For bigger jobs and more frequent use
- Cuts three times more area than Residential lines
- Edged (not round) line shape improves cutting performance
- Durability for trimming around decks and wooden fences

Professional

- Delivers the durability and performance the professional landscaper demands
- Cuts nine times more area than Residential lines
- Tough enough for edging and cutting through thick vegetation
