# Security Locking Mailboxes

## THE VACATION LOCKING MAILBOX

This large capacity security mailbox, made of durable powder coated 18-gauge steel, will keep weeks' worth of mail safe. A hinged flap allows you to choose where your mail is delivered. For everyday use, put the hinged flap in the down position, so mail is delivered to the non-locking storage area. When you go on vacation, put the hinged flap in the up position, so mail drops down into the secure locked storage area. The sturdy hinged hopper door is large enough to accept small packages. The locked access door features a hook latch locking system that latches through the frame. The mailbox is labeled inside, providing simple, easy-to-follow instructions for the delivery carrier. Powder coated black finish. Dimensions: 10-1/4" wide x 29-1/2" high x 23" deep. Optional 4" x 4" in ground black post (2mm thick).

# Westhaven Series Sign Systems

## WESTHAVEN & LEWISTON SERIES SIGN SYSTEMS

Let us design a street sign system that not only meets your community signage requirements, but can also match your mailboxes, golf course and directional signs. Our street signs are constructed entirely of aluminum and stainless steel and will not rust or rot.

Street sign blades and frames are made of cast aluminum. Specify either hanging (H) or bolt-on (B). Sign frames for all residential traffic sign shapes can be bolted onto the pole. All signs are built to DOT specs which measure 7' from bottom of first sign to ground unless designated otherwise. Overall height is determined by configuration. Poles come in three lengths: 14', 12', and 11'. Pole diameter is 3" OD or 4" square. Black is the standard color for street sign poles. Custom pole colors available.

We have all grades of DOT sign faces available (prices are quoted as Engineer Grade Prismatic Reflective unless designated otherwise). Our signs meet current DOT regulations for reflectivity in most communities (higher grade reflectivity available).
